Distinguished Budget Presentation Award

PRESENTED TO

Rogue Valley Sewer Services Oregon

For the Fiscal Year Beginning

July 01, 2024

Christophen P. Morrill

Executive Director

ROGUE VALLEY SEWER SERVICES

Location: 138 West Vilas Road, Central Point, OR - Mailing Address: P.O. Box 3130, Central Point, OR 97502-0005 Tel. (541) 664-6300 or (541) 779-4144 Fax (541) 664-7171 www.RVSS-or.gov

Fiscal Year 2026 July 1, 2025 – June 30, 2026 Budget Message

I am pleased to present the Rogue Valley Sewer Services budget for Fiscal Year 2026. This is a balanced budget where our resources equal our requirements.

Budget Policies

Every year, we submit our budget to the Oregon Municipal Finance Officers Association and the Government Finance Officers Association (GFOA) for review and critique. I am happy to report that once again, we received the Distinguished Budget Presentation Award from GFOA.

Our top priority is to maintain a balanced budget in accordance with State law. In so doing, it is our policy to not use debt to finance any of our operating expenses. We remain consistent with the policy and will not be using debt to finance operating expenses.

RVSS maintains an active capital improvement program that is designed to ensure adequate capacity and to rehabilitate older sections of pipe before they fail. At this point in time, we do not have any capacity deficiencies in the system. Our rehabilitation program calls for the replacement of approximately 2.0 miles of pipe per year. This work is funded through a combination of System Development Charges (SDC) and rates. We have recently been using debt to finance certain capital improvements. Service on this debt is backed by sewer rates.

Revenue Trends

We are projecting our total revenue to be in line with our current year's budget, with the exception of funding from DEQ loans for certain capital projects. Most of the loan proceeds will be distributed in FY 2025, but there will be some carry-overs into FY 2026.

While long-term trends still indicate a slow but steady growth in our service area, we are keenly aware of the current turmoil in financial markets and the possibility of a recession. Because of this we are

not projecting any growth in our service area for Fiscal Year 2026. The increases in our sewer rate revenue is all due to increased rates.

Sewer Rates

Our rate-setting philosophy is that all collection systems are considered equal, but treatment plants are not. The core area is defined as the area served by the Regional Water Reclamation Facility which is operated by the City of Medford. Rates in the core area are much lower because the larger plant is much more efficient. The Shady Cove area is served by the Shady Cove Treatment Plant and the Gold Hill area is served by the Gold Hill Treatment Plant.

The plans to improve the Medford Regional Water Reclamation Facility are well underway, and that is reflected in our sewer rates. For FY 2026, the treatment charges paid to Medford will be 25% higher than in FY 2025. For our cash flow analysis, we are projecting annual 10% increases in treatment charges for the next five years. This is the primary driver for our proposed rate increase this year.

Based on our rate analysis for this year, we are recommending an increase in single-family rates from \$27.00 to \$31.00 per month in our core area. For Shady Cove, the proposed increase will be from \$51.50 to \$53.00. With the annexation of Gold Hill, we agreed to maintain their current rate for a minimum of 2 years, which has now passed. We are proposing a rate increase from \$78.88 to \$85.00. All of the increase for Gold Hill will be dedicated to the Gold Hill Debt Service Fund.

Year	FY2021	FY2022	FY2023	FY2024	FY2025	FY2026
Residential Rate	21.50	23.00	24.00	25.50	27.00	31.00
(Core)						
Shady Cove	44.00	45.00	46.25	50.00	51.50	53.00
Gold Hill				78.88	78.88	85.00
State Average	52.71	53.92	55.66	58.24	61.27	63.53
State Median	50.91	50.91	52.29	55.61	56.98	60.34

Note: Shady Cove and Gold Hill rates include a 7% and 5% franchise fee, respectively.

A recent survey of 125 sewer service providers in Oregon revealed an average residential sewer rate of \$63.53, with a median rate of \$60.34 per month. Our residential rate remains among the lowest in the state.

Special Items of Interest

• Gold Hill – We are currently in the design phase for the regional intertie that will connect Gold Hill to the Regional Sewer System. We have secured a \$1.9 million loan for the design. The terms of the loan are 1.18% interest rate over 10 years with \$700,000 of the principal forgiven.

We expect to complete the design and move into the construction phase in the Spring of 2027. We are currently working with the various funding agencies, but have not yet secured funding for the construction.

We have assumed responsibility for a sewer construction loan issued to Gold Hill through Business Oregon. That loan has a current principal of approximately \$472,000 and an annual payment of approximately \$30,128.

We are very close to completing the assumption of the sewer construction loan issued to Gold Hill through the USDA Rural Development Program. That loan currently has a principal of approximately \$671,000 and an annual payment of \$27,297.

 Bipartisan Infrastructure Law (BIL) – The BIL has allowed DEQ to increase the amount of loan principal forgiveness that it offers. We have executed three loan agreements under this program.

The Antelope Road Sewer is a \$6.6 million loan with \$2 million in principal forgiveness. This is a 30 year loan at 1.43% annual interest. The project is still under construction.

The Cummins Stormwater Facility received special consideration because it is designed to treat emerging contaminants, specifically 6PPD-Quinone, which is a chemical used in tire manufacturing and has been found to be highly toxic to fish. We received a grant of \$383,000 through the DEQ Overflow Sewer and Stormwater Grant (OSG). In addition, we received a loan of \$120,230 through the DEQ Clean Water State Revolving Loan Fund, which will be 100% forgiven. The entire project cost of just over \$500,000 will be paid through grants.

The Shady Cove Disinfection project has a loan of \$1.75 million; 50% of this loan will be forgiven. The remainder will be a 30 year loan at 1.55% annual interest rate. We have awarded the contract for this project but construction has not yet begun.

We have not submitted any additional loan applications, but will consider doing so after we have completed the current loan-funded projects.

 Medford Treatment Plant – The Regional Rate Committee has approved a rate increase in September 2024 and another set to go into effect July 1, 2025. Combined these increases come to 25%. The Rate Committee is set to meet in May to consider additional rate increases for future years. We are projecting 10% increases each year as part of our 5 year cash flow model.

Medford is in the process of designing the improvements and has authorized the issuance of \$300 million in bonds to pay for them. This will have a significant impact on our rates in the coming years.

- Capital Improvement Plan Our capital improvement plan includes over \$10 million in spending across all funds. The majority of this spending will be financed through loans and grants.
- Debt Service We are obligated to pay debt service on loans issued to Shady Cove and Gold Hill for sewer improvements prior to annexation. Debt service on these loans comes to \$126,000 for Shady Cove and \$57,000 for Gold Hill.

We have projects currently active that will result in loan payments of approximately \$131,000 for the Gold Hill Intertie, \$190,000 for the Antelope Road project, and \$70,000 for the Shady Cove disinfection project.

This total debt service of approximately \$574,000 amounts to less than 4% of our total service charge revenue, which is not enough to cause a hardship. However, the debt service falls heavier on Shady Cove and Gold Hill.

Shady Cove debt service will be approximately 21% of service charges while Gold Hill will be approximately 35% of service charges, and we still have not secured the funding for the construction of the Gold Hill intertie. This is a concern that we need to monitor closely to ensure that we are able to keep rates as reasonable as possible.

- Shady Cove We are proposing an increase in sewer rate for Shady Cove from \$51.50 per month to \$53.00 per month. 75% of this revenue is used for treatment operations (Fund 50) and the remaining is transferred to the General Fund to support collection operations.
- White City Lagoons The White City Lagoon generates revenue from tipping fees charged to septic tank and grease interceptor pumpers. Surplus from the White City Lagoon (Fund 70) operations is transferred to the Treatment Capital Reserve Fund (55). We are budgeting a surplus of \$400,000 for FY 2026.

Staffing – We are not proposing any changes to our staff levels and will remain constant at 40 employees.

We have traditionally made annual Cost of Living Adjustments (COLA) to employee wages based on the Consumer Price Index (CPI-U). For this year, the proposed COLA is 3.0%.

Public Employee Retirement System (PERS) – The Board has elected to join PERS. This will
increase our payroll expense for employee retirement by 4%. We expect this change to
improve our efforts to recruit and retain talented employees, which justifies the added expense.

I would like to thank each of you for taking time out of your schedule to participate in the budget process. Your input and insights are extremely valuable in helping us remain a responsible and responsive government agency. Our Finance Director, Brenda Baldovino, and I are available to answer any questions you may have about the budget. Please do not hesitate to call us if you have questions or concerns.

Respectfully Submitted,

Carl Tappert, Manager

Rogue Valley Sewer Services History and Background

Rogue Valley Sewer Services (RVSS) is a special district that provides sewer service in Jackson County, Oregon. RVSS is governed by a five-member elected Board of Directors. RVSS serves the cities of Talent, Central Point, Eagle Point, Jacksonville, Phoenix, Shady Cove and a portion of the city of Medford, Oregon, and serves a population of approximately 81,755.

Rogue Valley Sewer Services (originally Bear Creek Valley Sanitary Authority) was established under Oregon Revised Statutes Chapter 450.705 through a special election in August 1966.

The primary purpose of RVSS was to construct and maintain a regional sewer interceptor connecting the cities of Medford, Central Point, Phoenix, and Talent to the regional wastewater treatment plant on Kirtland Road. RVSS also assumed management of the collection system in Talent.

When the interceptor system was completed in 1973, sewer service rapidly expanded to serve areas of the county suffering from failing septic systems.

In 1975 the White City Sanitary District became part of RVSS.

In 1998 the City of Eagle Point held an annexation election. Annexation was approved by 90% of the city voters.

In 2001 the City of Central Point held an annexation election. Annexation was approved by 94% of the city voters.

In 2003 RVSS relocated its offices to 138 West Vilas Road in Central Point and officially changed its name from Bear Creek Valley Sanitary Authority to Rogue Valley Sewer Services.

On July 1, 2004, RVSS started providing Stormwater Quality management services for the cities of Talent, Central Point, and Phoenix, Oregon, along with many of the unincorporated areas of Jackson County. RVSS holds the Municipal Small Separated Storm Sewer (MS4) permit under the National Pollutant Discharge Elimination System (NPDES) on behalf of these agencies.

In 2005 the City of Jacksonville held an annexation election. Annexation was approved by 97% of the city voters.

In 2006 the City of Phoenix held an annexation election. Annexation was approved by 93% of the city voters.

In 2016 RVSS entered into a 10-year agreement with Shady Cove. This agreement called for an annexation vote before the end of the term. History and Background, continued

In July 2018 RVSS entered into a 5-year management agreement with the City of Gold Hill. Gold Hill is operating under a Mutual Agreement and Order from DEQ which requires the City to make certain system improvements. The main remaining condition is the completion and implementation of a facilities plan for the treatment plant.

In November 2018 Shady Cove held an annexation election. The annexation was approved by 62% of city voters and went into effect on July 1, 2019.

In 2022 RVSS agreed to a one-year extension of the management agreement with Gold Hill. The extra year was intended to give the City sufficient time to decide on how to address the needed treatment plant improvements. The extension agreement included a provision that RVSS would not make any further extensions unless the City annexed into RVSS.

In August 2023, Gold Hill held a special election to decide whether the City of Gold Hill should annex into Rogue Valley Sewer Services. The annexation was approved by 94% of city voters and went into effect on November 1, 2023.

Rogue Valley Sewer Services Mission Statement and Values

<u>Mission Statement:</u> Manage, maintain, and improve storm and wastewater systems to protect and preserve public health, quality of life, and economic vitality in our community.

Values: The core values of the organization are:

- **System Integrity** The primary function of RVSS is to manage the sewer and stormwater infrastructure to ensure reliable service. This commitment ensures that we have state-of-the-art equipment and a proactive capital improvement plan.
- Customer Service RVSS treats all of our customers with respect and honesty.
- **Fiscal Responsibility –** RVSS focuses on efficient operations and preventative maintenance to control costs and keep rates low while still providing excellent service.
- Environmental Protection RVSS works to protect our natural resources in all aspects of our operations.
- **Innovation –** RVSS draws on the creativity of our employees to develop new and innovative approaches to doing our work.
- **Empowered Employees** RVSS believes giving employees more responsibility improves efficiency and strives to engage staff to develop their individual talents and to participate in company decisions.
- Joy RVSS believes that the work environment should be enjoyable.

Rogue Valley Sewer Services Financial Policies

- 1. For financial reporting and operating purposes, the District considers its activities as those of a unitary enterprise operation (proprietary fund). Therefore, these activities are reported in a single enterprise fund but for internal financial controls operates with 11 funds and the General Fund with 7 departments. However, for legal requirements as set forth in the Oregon Local Budget Law, the District prepares and adopts a budget on the modified accrual basis for its individual fund types. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. For all funds, the District has established the level of control by expenditure category. These categories include: personnel services, materials and services, capital outlay, contingency, debt service and transfers to other funds. These transfers are used between funds and departments to ensure each are balanced annually in accordance with State Law.
- 2. Sewer service will be provided to those who need and can afford it within the limits of RVSS to do so as allowed by law. Every effort will be made to assist those who must connect and are unable to pay.
- 3. To adopt a balanced budget annually in accordance with State Law, wherein resources (beginning fund balance plus revenues plus transfers in) equals requirements (expenditures plus transfers out plus contingency plus ending fund balance).
- 4. Current operating expenditures (which exclude capital projects), will not be financed by debt.
- 5. Rogue Valley Sewer Services will charge sewer service fees, stormwater quality fees, storm drain fees, system development charges, and all other fees to recoup the full cost of providing those services to customers. Service will be billed one month in arrears. Quarterly and annual billing with discounted rates will also be available, except for the City of Gold Hill. Late charges will be billed in accordance with provisions in the current Code.
- 6. Financing will be offered to those who hook up to sewer lines through the Local Improvement District (LID) process, at the most reasonable cost possible and in accordance with State law. Rogue Valley Sewer Services will issue tax-free municipal debt or other legal financing and will add a nominal percent to these interest rates in order to ensure that sufficient reserves are maintained for all debt payments.

Financial Policies, continued

- 7. Financing for those customers hooking up to sewer lines outside the LID process will be made available only from existing fund balances. Bonds or debt will not normally be issued for this purpose.
- 8. Rogue Valley Sewer Services may provide short-term loans from the General Fund for temporary financing of other funds. When favorable interest rates warrant use of long term DEQ revolving loans or other long term debt instruments.
- Reserves for loan services, regional interceptor SDCs, and operations equal to one month's total appropriations (8.33%) will be deducted from Ending Fund Balance to arrive at the Unreserved Ending Fund Balance. Five-year cash flow projections will be done for the General Fund to help ensure adequate Unreserved Ending Fund Balances over time.
- 10. System Development Charges (SDCs) will be collected on all properties that are hooked up to sewers. These fees are based on the costs of installing existing and future system-wide interceptor, trunk, and lateral lines. SDCs collected may also be contributed to private projects where the extraordinary costs associated with extra depth, size, or length of pipe result in an unreasonable cost burden upon property owners to be served.
- 11. RVSS manages risk with the commitment to ensure that its resources are managed to provide returns that are of the greatest benefit to the community with the lowest amount of risk.
- 12. The general investment goals for RVSS are to conservatively invest monies in certificates of deposits to receive the greatest amount of return based in our current economy.
- 13. The financial policies listed above have not been formally adopted by the Board.

Rogue Valley Sewer Services Budget Calendar- Fiscal Year 2026 July 1, 2025 - June 30, 2026

February 19, 2025	Wednesday	At regular Board of Directors meeting establish Wednesday April 23, 2025 as the date for the public meeting of the Budget committee to consider the budget for FY26.
February 20, 2025	Thursday	Joan to Notify Budget Committee members of the time and place of the meeting.
Jan 07 - April 08, 2025		Department Heads and Manager discuss and prepare proposed budget, capital improvement plan and five year general fund cash projections.
March 20, 2025	Thursday	Deliver notice of Budget Committee public meeting to Oregon.gov/Oregon Meetings for publication on March 27 and April 3, 2025.
March 26, 2025	Wednesday	Publication of notice of Budget Committee public meeting - first notice. (Not more than 30 days prior to meeting date.) RV Times only publishes Wed and Sat
April 2, 2025	Wednesday	Publication of notice of Budget Committee public meeting - second notice. (Not less than 5 days prior to the meeting date,) RV Times only publishes Wed and Sat
April 11, 2025	Friday	Send copies of the proposed budget FY26, date and schedules to the committee members; reminder of Budget Committee meeting place. At this time the budget becomes a public document. Proposed Budget FY26 to be posted on our website.
April 23, 2025	Wednesday	Budget Officer presents proposed budget. Public meeting of Budget Committee at Noon for consideration of FY26 Budget.
April 23 - May 14, 2025	Wednesday	Period during which adjourned public meetings of the Budget committee may be held if necessary.
May 16, 2025	Friday	Deliver notice of the public hearing before the Board of Directors on the approved budget together with a copy of the summary of the budget (LB-1) for publication to Oregon.gov/Oregon meetings. Publication date to be May 23, 2025 giving notice of the meeting
May 28, 2025	Wednesday	Publication of notice of public hearing (Form LB-1) before Board of Directors on approved budget with budget summaries. (not less than 5 nor more than 30 days before the scheduled budget hearing.) Approved budget posted on Web Site.
June 18, 2025	Wednesday	Public hearing before the Board of Directors at NOON on the approved budget at the regular meeting of the Board of Directors.
		Adopt the approved budget, adopt a resolution appropriating the funds required and authorizing expenditures. Adopt the 5 year Capital Improvement Plan by resolution. Adopted budget posted on Web Site. Resolution to balance FY25 budget - move \$\$ if necessary
June 5, 2025	Thursday	File letter to Jackson County Assessor's Office requesting extension on LB-50
June 19, 2025	Thursday	File copy of adopted budget, along with notice of levy, and (LB-1) each notice published of the public hearing before the Board of Directors with Jackson County Clerk. Required by August 15, 2025 IF EXTENSION GRANTED.
Aug 15, 2025	Friday	File 2 copies form LB-50 Certification of Taxes, and the Resolution adopting the budget and making appropriations with the Jackson County Assessor. Required by July 1, 2025, unless extension in writing is granted. Extension will be requested until August 15, 2025.

Rogue Valley Sewer Services Budget Process

The Budget Adoption Process

The Rogue Valley Sewer Services (RVSS) annual budget process routinely begins in March with the preparation of revenue and expense estimates. The Manager, Operations Manager, Engineer, Storm Water Manager, Finance Director, and Network Administrator review these estimates and develop the service delivery objectives and capital outlay plan for the District as a whole.

The resulting proposed budget is presented to the Budget Committee at the end of April. The Budget Committee is comprised of five members appointed by the Board of Directors and the five elected Board members of Rogue Valley Sewer Services.

Oregon Revised Statutes require that the Budget Committee meet in order to hear the budget message, receive the budget document, hear people, and approve the budget document sufficiently in advance of June 30, to allow adoption of the budget by June 30.

After approval of the budget document by the Budget Committee, a summary of the budget document, as approved by the Budget Committee, is published in a local newspaper.

A public hearing is held before the Rogue Valley Sewer Services Board of Directors in June for purposes of discussing and hearing public testimony in regard to the programs included in the budget.

The Board of Directors adopts the budget and makes appropriations and levies taxes by resolution for the ensuing fiscal year after the public hearing is closed.

If additional meetings are called for, they take place before the end of June in order to allow for adoption of the budget and the making of appropriations before June 30.

The Budget Amendment Process

Oregon Budget Law allows for amendments to the District budget for reasons unforeseen at the time of adoption. The Board may adopt resolution changes that decrease one existing appropriation and increase another. Changes of ten percent or more to any fund require a supplemental budget, which involves a process similar to the annual budget process and requires a public hearing.

The Budget Committee

The Budget Committee is comprised of the five members of the District Board and five citizen members appointed by the governing board. The appointed members must live in the District but cannot be employees of the District. The appointed members serve three year terms that are staggered so that approximately one third of the terms end each year.

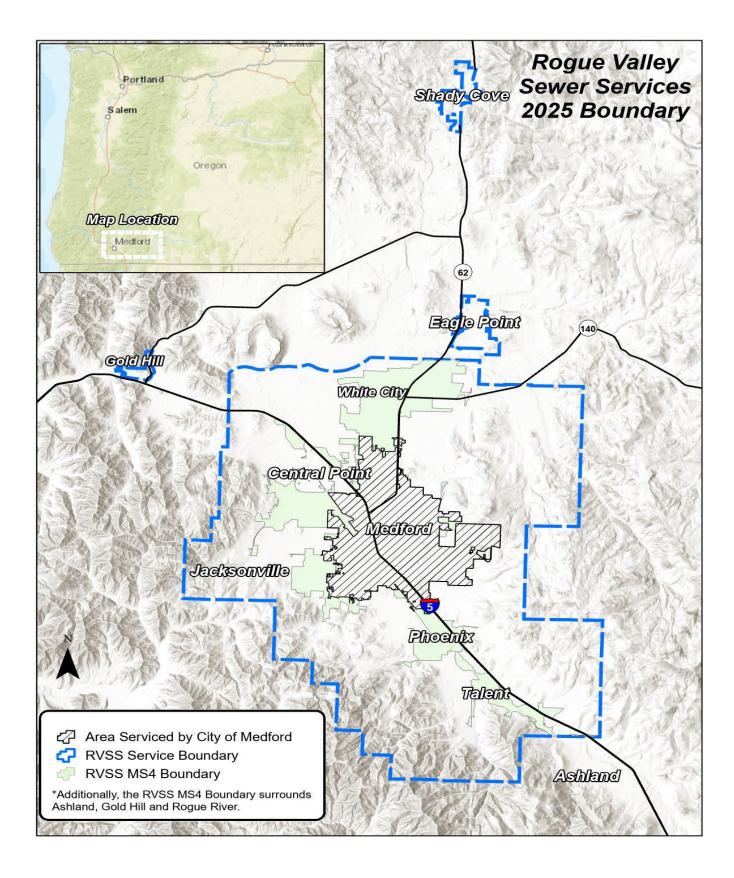

Budget Process, continued

The Budget Basis

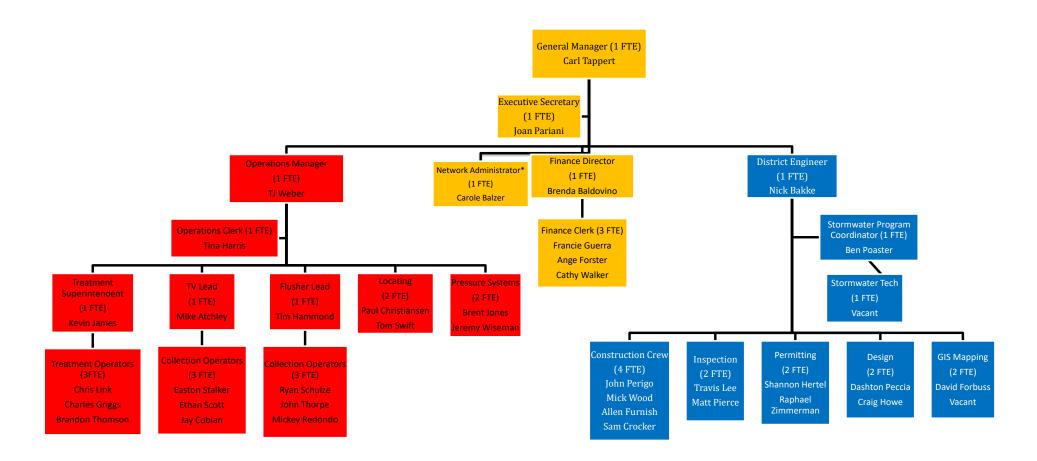

The budgets of all funds are prepared using the modified accrual basis of accounting. This means that the obligations of the District are budgeted as expenditures when the related goods or services are incurred as a liability rather than when invoices are paid. Revenues are recognized when measurable and available.

The District manages its finances according to generally accepted accounting principles (GAAP). During the year, expenditures and revenues are closely monitored to ensure compliance with the adopted budget and State law. Detailed budget comparisons are prepared and reviewed with management quarterly. Quarterly financial reports, prepared on the budgetary basis of accounting are distributed and reviewed with the Board of Directors. The District publishes an annual financial report that documents the District's budgetary performance and the financial health of the District. This report compares budget to actual revenues and expenditures, thus documenting the District's budgetary compliance.

Annually, an audit is performed and filed with the State of Oregon by an independent certified public accountant. The basic financial statements are stated on a full accrual basis, which is different than the modified accrual basis used for budget. Under the full accrual basis of accounting, revenues are recognized when earned and expenses are recognized when liabilities are incurred, regardless of the timing of the cash flow. Budget comparisons, prepared on a modified accrual basis, are included as a schedule in the comprehensive annual financial report.

ROGUE VALLEY SEWER SERVICES FISCAL YEAR 2025 - 2026 Departmental Organization

1 Network Administrator is also desgnated as Deputy Manager

- 2 The Operations Manager is designated as Operator of Record for the collection system
- 3 Treatment Superintendent is designated as Operator of Record for Shady Cove WWTP and the White City Lagoon
- 4 The City of Central Point's employee, Derek Zwagerman, is the designated Building Operator.
- 5 Chris Link designated as backup Operator of Record for Shady Cove WWTP and the White City Lagoon

Rogue Valley Sewer Services FY26 Adopted Budget

Fund/Department Matrix

Each Fund below lists the responsible Departments for each.

	FUND	DEPARTMENT*
01	General	10, 20, 30, 35, 40, 50, 60
04	Bear Creek Interceptor O&M	10, 40, 50
06	Dunn Pump Station O&M	10, 20, 40
07	Interceptor Capital Expansion	10, 40, 50
09	White City Storm Drains	10, 35, 50
10	Stormwater Quality Mgt.	10, 35, 50
50	Shady Cove Treatment	10, 20, 60
55	Treatment Capital	40, 50
60	Gold Hill Treatment	10, 50, 60
62	Gold Hill Debt Service	10
70	Lagoons	10, 40, 50, 60

* Department 10	Administration
Department 20	Information Technology
Department 30	Engineering
Department 35	Stormwater Quality
Department 40	Maintenance
Department 50	Construction
Department 60	Treatment

Fund: General (01)

<u>Goals and Objectives</u>: The General Fund accounts for all financial transactions of Rogue Valley Sewer Services except those that are required to be accounted for separately through intergovernmental or other agreements.

Major Source of Revenue: The largest source of revenue for this fund is sewer service charges, which account for approximately 61% of General Fund revenues. The adequacy of service charges to meet operational needs is evaluated annually, and rates are adjusted as needed.

For FY26, we will have a 14.8% sewer rate increase which raised the single family rate from \$27.00 to \$31.00. This rate increase is largely due to the Treatment rate increase of 17%. Even with the \$4.00 rate increase, RVSS still has one of the lowest sewer rates in the State of Oregon. Our five year cash flow projections indicate that this increase would be followed by annual increases for the following four years.

System Development Charges (SDCs) are another important revenue source. SDCs are assessed when new development takes place. SDCs account for about 2.5% of General Fund revenues. The amount of the System Development Charge is recalculated annually based on a variety of factors, including the cost of completed infrastructure projects; the value of proposed infrastructure projects; the number of current connections; and the anticipated number of future connections.

Rogue Valley Sewer Services occasionally relies on financing through the State Revolving Funds to pay for capital improvements. The amount borrowed varies from year to year dependent upon the capital improvements planned.

Major Expenditures: General Fund expenditures are grouped into four categories: Personnel Services; Materials and Services; Capital Outlay; and Debt Service. In addition to these categories there are interfund transfers made to support other funds.

Personnel Services include all salaries and fringe benefits for our staff of 40 employees. Fringe benefits include a defined contribution retirement plan through the International City Managers Association (ICMA) and health insurance. Over the past ten years the Personnel Services budget has ranged from 33% to 48% of the sewer service charge revenue. For the FY26 budget the Personnel Services are expected to be 41% of service charge revenue.

Material and Services includes the various supplies, minor equipment, support services, and other miscellaneous expenses incidental to the operation of the sewer

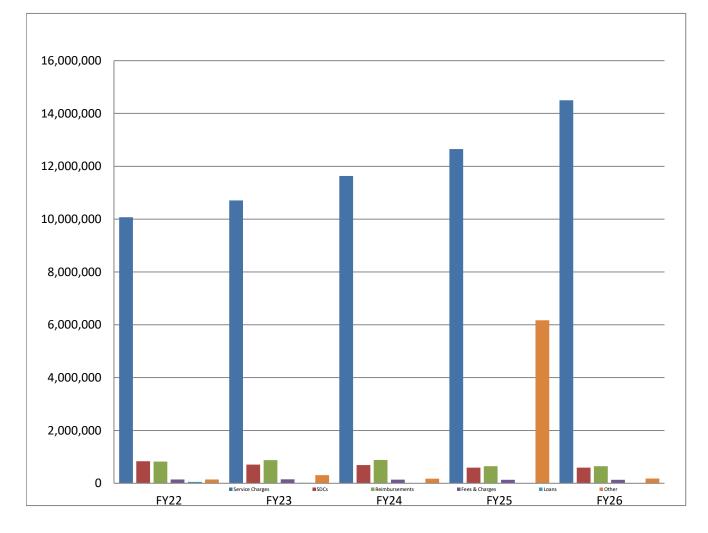

system. This also includes a pass-through charge for the City of Medford to pay for our share of the treatment plant operations. The treatment charge is the single largest expense of RVSS and is a direct function of service charges received, consuming approximately 43% of service charge revenue.

Capital Outlay includes infrastructure projects; major equipment and vehicles; and major software expenses. Infrastructure projects are funded through a combination of SDCs, SRF Loans, and sewer service charges. All other capital outlay is funded through sewer service charges.

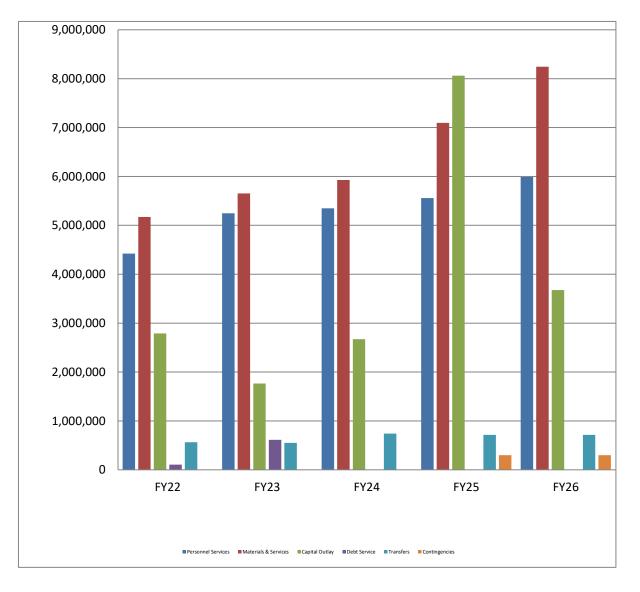

Debt Service covers the principle and interest payments for loans used to finance previous infrastructure projects.

Interfund Transfers are made from the General Fund into the Regional Funds 04 and 07 in accordance with the Regional Sewer Agreement between the City of Medford and Rogue Valley Sewer Services. Occasionally transfers are made in the form of loans to other funds to make up for shortfalls in those funds.

Fund: Bear Creek Interceptor Operations & Maintenance (04)

Goals and Objectives: The Bear Creek Interceptor is a regional facility serving both the City of Medford and Rogue Valley Sewer Services. It consists of the Upper Bear Creek Interceptor, the Lower Bear Creek Interceptor, and the Old Medford Trunk. Rogue Valley Sewer Services is responsible for the operation and maintenance of this facility in accordance with the Regional Sewer Agreement between RVSS and the City of Medford.

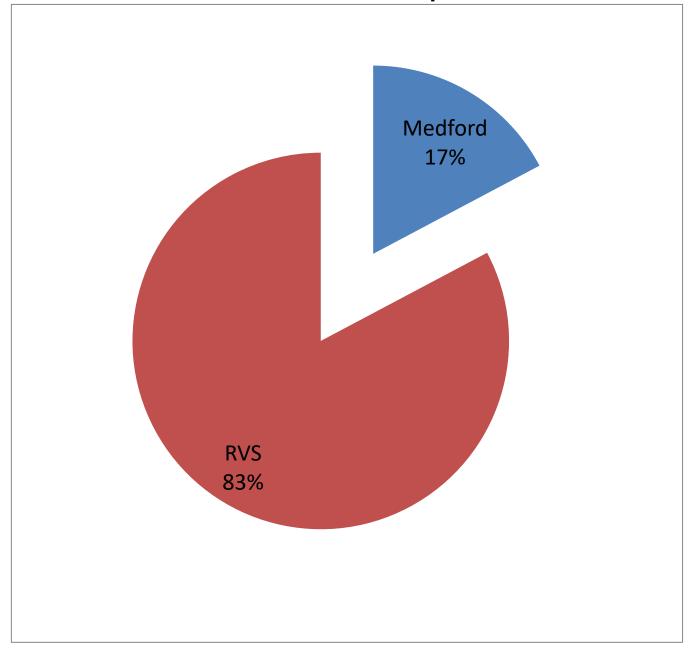

This fund is used to account for the costs associated with this operation and maintenance. This fund is intended to be a break-even with a small ending fund balance

Major Source of Revenue: Revenue for this fund comes from assessments charged to the City of Medford and RVSS. The assessment is based on the total number of equivalent residential units (ERU) and the amount of flow contributed to each of the interceptors. The current assessment is \$0.12 per ERU for the City of Medford and \$0.52 per ERU for RVSS.

<u>Major Expenditures</u>: Expenditures from this fund consist of costs associated with the operations and maintenance of the facility.

Equipment and Labor costs incurred during the operation and maintenance of the interceptor are reimbursed back into the General Fund 01.

Fund: Dunn Pump Station Operations & Maintenance (06)

Goals and Objectives: The Dunn Pump Station is a regional facility serving both the City of Medford and Rogue Valley Sewer Services. Rogue Valley Sewer Services is responsible for the operation and maintenance of this facility in accordance with the Regional Sewer agreement between RVSS and the City of Medford.

This fund is used to account for the costs associated with this operation and maintenance. This fund is intended to be a break-even with a small ending fund balance.

<u>Major Source of Revenue:</u> Revenue for this fund typically comes from an interfund transfer from the Bear Creek Interceptor Operations and Maintenance Fund 04.

<u>Major Expenditures</u>: Expenditures from this fund consist of costs associated with the operations and maintenance of the facility.

Equipment and Labor costs incurred during the operation and maintenance of the interceptor are reimbursed back into the General Fund 01.

Fund: Interceptor Capital Expansion (07)

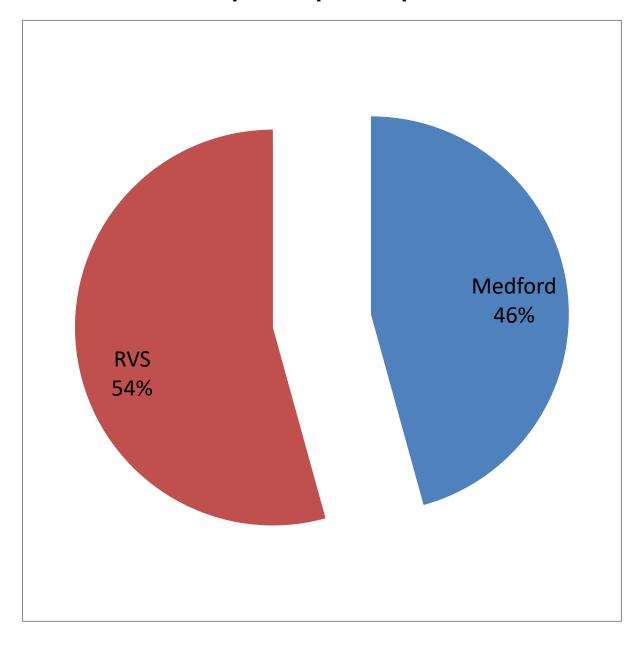

Goals and Objectives: The Interceptor Capital Expansion Fund is intended to pay for capital projects related to the Bear Creek Interceptor and the Dunn Pump Station. Rogue Valley Sewer Services is responsible for ensuring that these facilities have adequate capacity to serve both the City of Medford and RVSS in accordance with the Regional Sewer agreement between RVSS and the City of Medford.

This fund is used to account for costs associated with these capital improvements. This fund maintains a surplus to pay for anticipated future improvements.

Major Source of Revenue: Revenue for this fund comes from assessments charged to the City of Medford and RVSS. The assessment is based on the total number of equivalent residential units and the amount of flow contributed to each of the interceptors. The current assessment is \$1.05 per ERU for both the City of Medford and RVSS.

<u>Major Expenditures</u>: Expenditures from this fund consist of costs associated with capital improvements.

Fund: White City Storm Drains (09)

Goals and Objectives: The White City Storm Drain Fund is a dedicated fund established in 1989 to maintain and improve the storm drainage system in the industrial portion of White City. Under an agreement with Jackson County, RVSS maintains all piped stormwater facilities in the area and any open ditches that are not accessible from a public road. Jackson County maintains open ditches that are accessible from a public road.

This fund is intended to be fully independent of the General Fund and maintains a fund balance to cover costs of future improvements.

<u>Major Source of Revenue</u>: Revenue for this fund comes from fees charged to property owners within the White City Storm Drain Area. The fees are based on the size of the property and the amount of impervious surface on the property.

Major Expenditures: Expenditures from this fund consist of costs associated with the operations and maintenance of the storm drains and capital improvements to the storm drain infrastructure.

Equipment and Labor costs incurred during the operation and maintenance of the infrastructure are reimbursed back into the General Fund 01.

Fund: Stormwater Quality (10)

Goals and Objectives: The Stormwater Quality Management Fund is a dedicated fund established in 2004 to implement the requirements of the National Pollutant Discharge Elimination System Municipal Small Separate Storm Sewer permit (NPDES MS4).

Rogue Valley Sewer Services has acted as the lead agency for a joint permit covering the cities of Talent, Phoenix, and portions of unincorporated Jackson County.

This fund is intended to be fully independent of the General Fund and maintains a fund balance to cover costs of future improvements.

<u>Major Source of Revenue:</u> Revenue for this fund comes primarily from fees charged to residents within the permit area. A fee of \$1 per month for a single family residence or \$1 per 3,000 square feet of impervious surface for other uses is collected.

There is some additional revenue received from permit fees collected when RVSS issues erosion control permits under this program.

Major Expenditures: Expenditures from this fund consist of costs associated with the management of the stormwater program and capital improvements designed to protect or improve stormwater quality. Debt service covers principal and interest payments for loans used to finance infrastructure projects. The CWSRF loan should be paid in full from grants if approved.

Equipment and Labor costs incurred during the operation and maintenance of the infrastructure are reimbursed back into the General Fund 01.

Fund: Shady Cove Treatment (50)

Goals and Objectives: The Shady Cove Treatment Fund was initially established in 2011 when RVSS entered into an agreement with Shady Cove to manage both the collection system and the treatment plant. This fund tracks expenses related to the wastewater treatment plant.

In November 2018, the City of Shady Cove voters approved the annexation measure to join Rogue Valley Sewer Services.

<u>Major Source of Revenue:</u> Revenue for this fund comes from monthly service rates from residents of Shady Cove.

<u>Major Expenditures:</u> Expenditures from this fund consist of costs associated with the operations and maintenance of the wastewater treatment plant and debt service.

Equipment and Labor costs incurred during the operation and maintenance of the infrastructure are reimbursed back into the General Fund 01.

Fund: Treatment Capital (55)

<u>Goals and Objectives:</u> The Treatment Capital Fund is a dedicated fund initially established in 2011 to pay for capital improvements within the Shady Cove collection system and treatment plant.

In November 2018, the City of Shady Cove voters approved the annexation measure to join Rogue Valley Sewer Services. As of July1, 2019, the City of Shady Cove was annexed into Rogue Valley Sewer Services.

With the annexation the purpose of this fund was expanded to cover capital improvements to both the Shady Cove Treatment Plant and the White City Lagoons, as both are now treatment facilities owned and operation by RVSS.

Major Source of Revenue: Revenue for this fund comes from Shady Cove SDC fees and surplus funds generated from service rates and transferred from Fund 50 to Fund 55. A portion of the Septage revenue received in fund 70 is also transferred to fund 55 for capital improvements to the system and treatment plant.

Major Expenditures: Expenditures from this fund consist of costs associated with making capital improvements to the Shady Cove treatment plant and the White City Lagoons. Debt service covers principal and interest payments for the infrastructure project.

Fund: Gold Hill Treatment (60)

Goals and Objectives: The Gold Hill Treatment Fund was established in FY 2018 to track the expenses related to operating the wastewater treatment plant for the City of Gold Hill. RVSS currently operates this plant under an agreement for the operation and maintenance of the plant which expired in 2022. At the end of FY22 RVSS Board of Directors agreed to extend our management agreement with Gold Hill for one year. We included a provision in the agreement that we would not extend any further unless the City agrees to annex into RVSS.

In August 2023, Gold Hill held a special election to decide whether the City of Gold Hill should annex into Rogue Valley Sewer Services. The annexation was approved by 94% of city voters and went into effect on November 1, 2023.

This fund is intended to be fully independent of the General Fund.

<u>Major Source of Revenue:</u> Revenue for this fund comes from sewer rates collected from Gold Hill residents.

<u>Major Expenditures</u>: Expenditures from this fund consist of costs associated with the operations and maintenance of the wastewater treatment plant.

Equipment and Labor costs incurred during the operation and maintenance of the infrastructure are reimbursed back into the General Fund 01.

Fund: Gold Hill Debt Service Fund (62)

Goals and Objectives: The Gold Hill Debt Service Fund is newly established for FY 2025 to track debt payments for the Gold Hill loan assumptions agreed upon during the annexation. Debt Service payments for the planned DEQ loans on the proposed regional intertie projects will not begin until the projects are complete.

This fund is intended to be fully independent of the General Fund.

Major Source of Revenue: Revenue for this fund comes from a portion of the Gold Hill sewer payments received and specifically allocated to the debt payments for the Gold Hill debt.

<u>Major Expenditures:</u> Expenditures from this fund consist of payments, principal and interest on the assumed loans and planned DEQ loans for the regional intertie projects.

Fund: Lagoons (70)

Goals and Objectives: The Lagoons Fund was established in FY 2020 to track the expenses related to operating the Lagoons. This fund is intended to be fully independent of the General Fund.

Major Source of Revenue: Revenue from this fund comes from hauled septage accepted for a fee. Below is a graph showing the gallons received each month for Septage, Porta Potty Waste and Fats, Oils, Grease. See graph below for gallons received each month over the last two years.

Major Expenditures: Expenditures from this fund consist of costs associated with the operations and maintenance of the lagoons. Surplus funds generated from the hauled septage will be transferred to Fund 55 to help finance capital improvements for both the Shady Cove Treatment Plant and the White City Lagoons.

Equipment and Labor costs incurred during the operation and maintenance of the infrastructure are reimbursed back into the General Fund 01.

Department 10: Administration

Description:

Rogue Valley Sewer Services Administration Department provides professional administrative and accounting support in the planning and execution of general and financial policies and objectives. These are developed by the Rogue Valley Sewer Services Board of Directors for the sewer service needs of the region.

Funding:

The Administration Department's general operational expenses are funded by revenue collected through service charges within RVSS General Fund 01.

<u>Goals:</u>

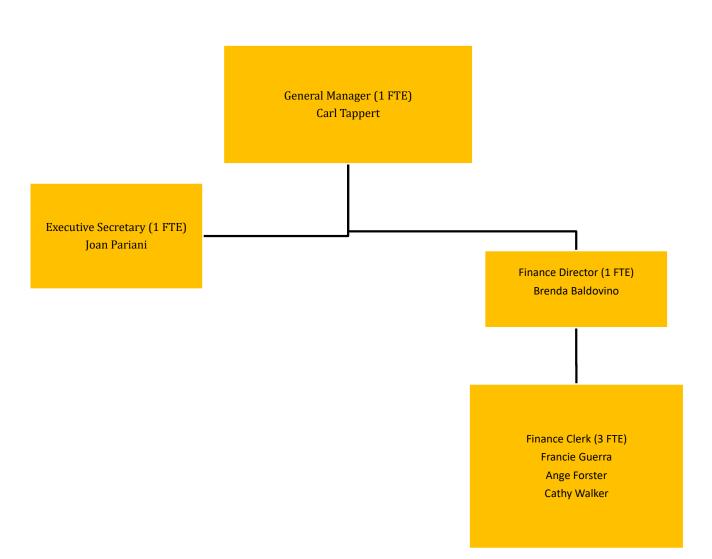

• Provide leadership to all departments of the District in management and administrative issues and public relations.

Performance Measures:

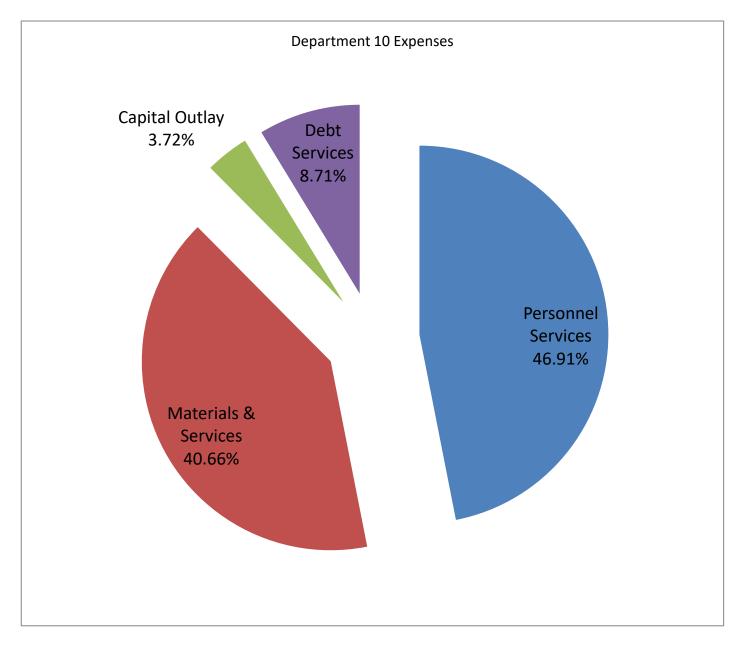

- Meet weekly with Department Head staff to review services/programs and projects.
- Meet once a month with ALL company employees for an update from our General Manager.

<u>**Outcomes**</u>: Department heads continue to meet on a weekly basis to discuss status of current and future projects. RVSS continues to have a monthly meeting with ALL staff for project updates.

ROGUE VALLEY SEWER SERVICES FISCAL YEAR 2025 - 2026 Department 10 Administration/Finance

Department 20: Information Technology

Description:

Rogue Valley Sewer Services Information Technology Department designs databases, provides geographic information system mapping and applications, and purchases, maintains, and provides support for network and computer related hardware and software.

Funding:

The Information Technology Department's expenses are funded by revenue collected through service charges within RVSS General Fund 01, Phase II Permit fees collected in RVSS Stormwater Quality Management Fund 10, and revenue collected within the Shady Cove O&M Fund 50.

Goals:

- Configure and purchase hardware and software to meet the current and future needs of RVSS keeping in mind ease of use for employees, sustainability, and budget limits.
- Provide hardware and software support to maintain uninterrupted operation of RVSS.
- Increase efficiency through technology.

Performance Measures:

- The current and future needs of RVSS have been met with computer hardware and software.
- The uninterrupted operation of RVSS.
- The happiness of RVSS employees.

Outcomes:

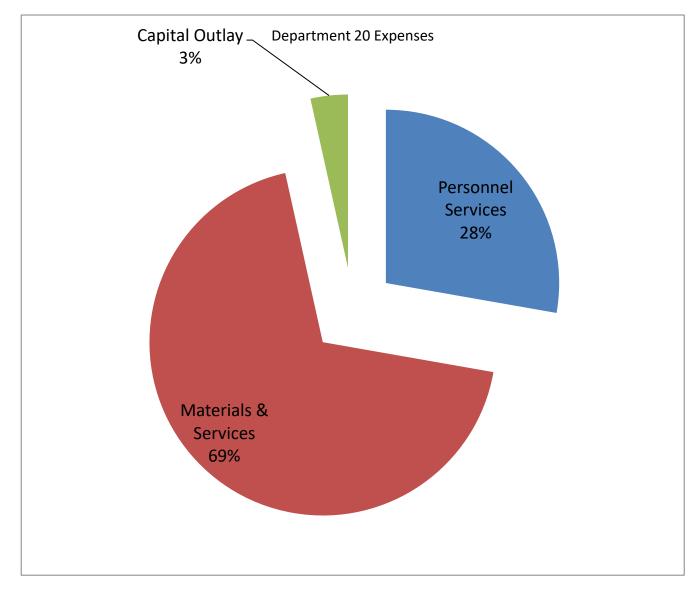

In FY2025, IT set up dual internet providers, Hunter (primary) and Spectrum (secondary), provides less internet down time and quicker speeds. Completed upgrading our accounting software to cloud based. Provides employees with more options and quicker report processing. Employees are now able to input time to their timecards from their cell phones creating more efficiency for our employees working out in the field.

ROGUE VALLEY SEWER SERVICES FISCAL YEAR 2025 - 2026 Department 20 Network Administrator

Network Administrator* (1 FTE) Carole Balzer

1 Network Administrator is also desgnated as Deputy Manager

Department 30: Engineering

Description:

Rogue Valley Sewer Services Engineering Department oversees infrastructure development, capital planning, design and construction of sewer and stormwater capital projects, project management, mapping service, and inspection within the service boundary of RVSS.

Funding:

The Engineering Department's general operational expenses are funded by revenue collected through service charges within RVSS General Fund 01. Capital Improvements are funded by revenues collected from service charges and System Development Charges within General Fund 01, Interceptor Capital Expansion Fund 07, and White City Storm Drain Fund 09. Stormwater quality capital projects are funded by stormwater fees collected within the Storm Water Quality Fund 10.

<u>Goals:</u>

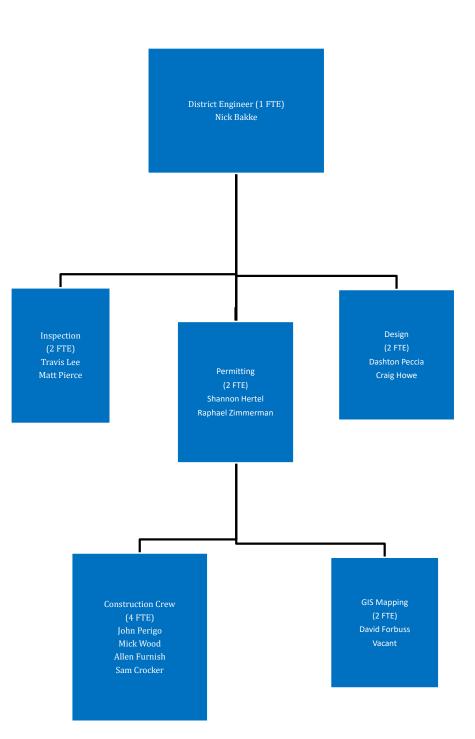

- Provide sewer infrastructure to ensure the health, safety and livability within and around the RVSS service boundary.
- Uphold State and Federal Standards for the operation and construction of all sewer facilities that are existing and/or installed within RVSS service boundary.
- Maintain and strengthen professional working relationships within the community RVSS serves and the agencies with whom RVSS coordinates.
- Maintain and manage a robust capital improvement plan to ensure long term viability of RVSS sewer system.
- Repair or replace between 1% and 2% of the existing concrete and asbestos cement pipe annually.

Performance Measures:

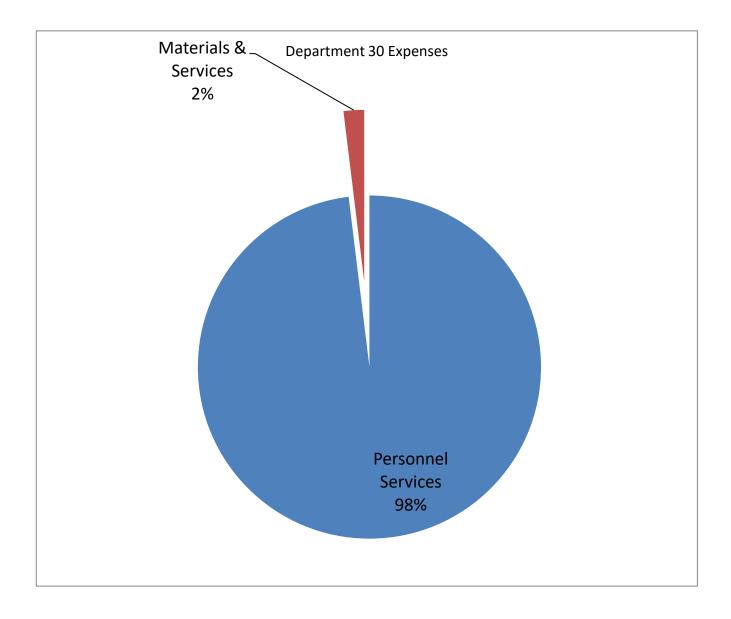

- **SSO**: Ensure sewer system has adequate capacity and structural stability to withstand a one in five year storm event without overflow.
- **Inspection**: Ensure service and mainline inspections are completed in accordance with the Oregon Plumbing Specialty Code and Rogue Valley Sewer Services Standards.

<u>Outcomes:</u>	FY22	FY23	FY24
% of line TV'd	26%	30%	29%
% of line Flushed	34%	26%	37%

Department 35: Storm Water Quality

Description:

Rogue Valley Sewer Services Stormwater Department operates under the direction of the District Engineer and oversees development and implementation of the Municipal Separate Storm Sewer System (MS4) Phase II Permit and the required Stormwater Management Program. In addition, the Stormwater Department, implements and enforces the terms of the Memorandum of Agreement and Intergovernmental Agreements between RVSS and the Oregon Department of Environmental Quality (DEQ) for the 1200-C and CN Construction General Permits.

RVSS had jurisdiction over stormwater quality infrastructure within the MS4 boundary, and all storm drainage infrastructure within the White City Industrial Storm Drainage Boundary.

Funding:

The Stormwater Department's operational and capital expenses are funded through a Stormwater Quality fee collected within the MS4 Boundary, and a White City Storm Drain fee collected within the White City Industrial Storm Drainage boundary.

Goals:

- Implement and enforce the MS4 Phase II permit requirements set by Oregon Department of Environmental Quality.
- Implement and enforce the 1200 C, CN and CA Construction General permit requirements set by the Oregon Department of Environmental Quality.
- Maintain and strengthen professional working relationships within the community RVSS serves and the agencies with whom RVSS coordinates.

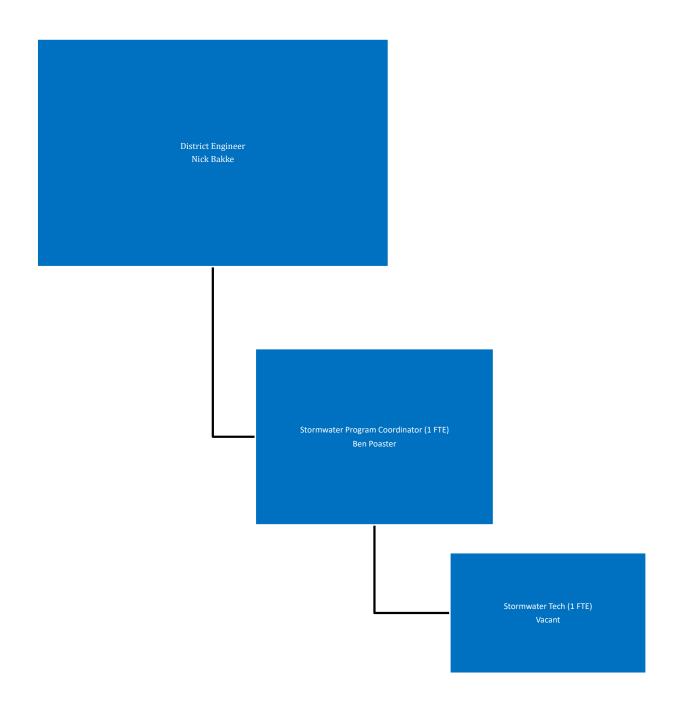

Performance Measures:

- **MS4 Phase II**: Ensure the annual reporting and proposed Phase II performance measures are met on an annual basis.
- **Construction General Permit**: Ensure annual reporting and performance measures are met on an annual basis.

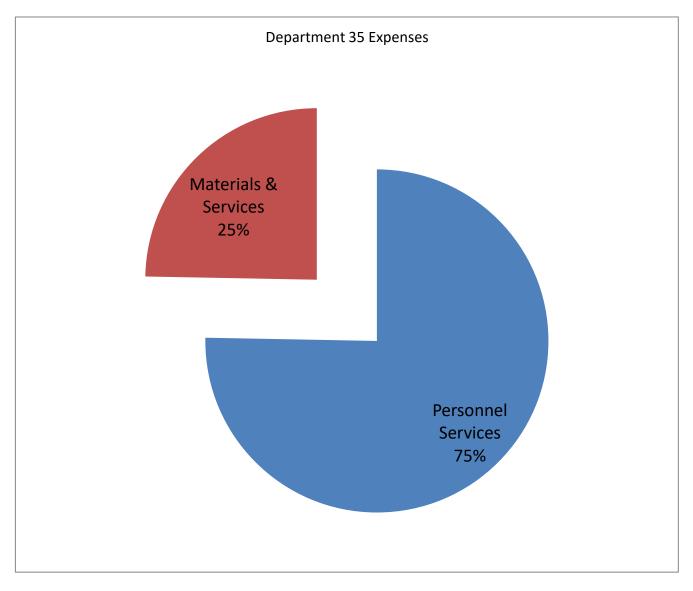

Outcomes:

	FY22	FY23	FY24
Outfalls inspected	75/202	60/136	53/137

Department 40: Maintenance

Description:

Rogue Valley Sewer Services Maintenance Department provides for the safety of RVSS customers through the inspection, cleaning, and minor repairs of all sewer main lines used within its boundaries. Cleaning is mainly accomplished through the use of specially designed trucks, which use both flush and vacuum operations.

Funding:

The Maintenance Department's general operational expenses are funded by revenue collected through service charges within RVSS General Fund 01. Repairs and maintenance are funded by revenues collected from service charges and System Development Charges within General Fund 01, Interceptor Capital Expansion Fund 07, and White City Storm Drain Fund 09.

<u>Goals:</u>

• Maintain the sewer system to protect the health and safety of people within the RVSS boundary.

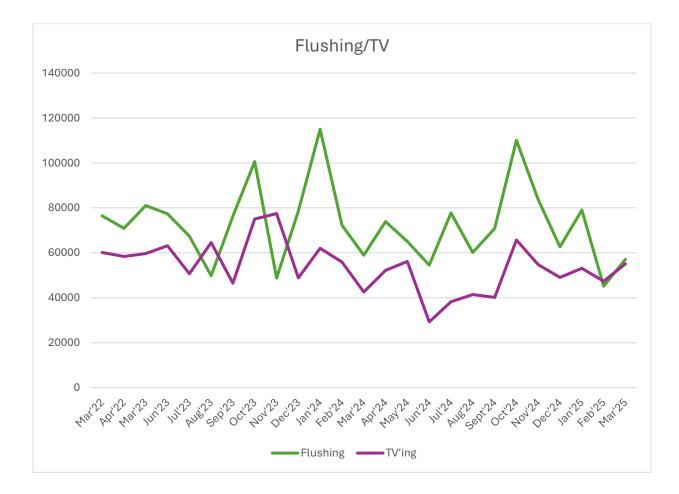

Performance Measures:

- **SSO**: Ensure sewer system is maintained and improved to ensure zero overflows each year.
- **Pipe Cleaning:** Complete main line pipe cleaning on the entire system at least once every 3 years.
- **Pipe Inspection:** Complete main line pipe television inspection on the entire system at least once every 5 years.
- Pump Stations: Complete pump stations capacity tests at least once per year.
- Treatment Plant: Comply with all discharge permit requirements.

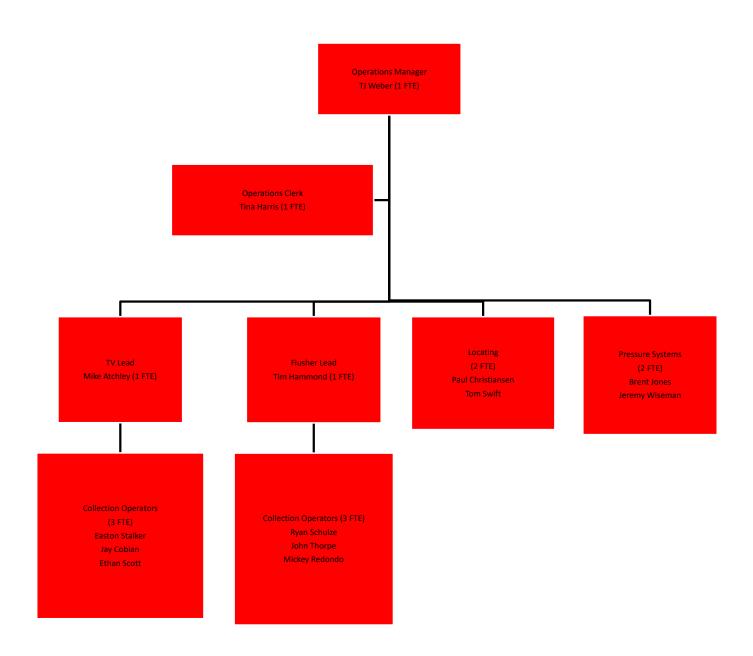

<u>Outcomes</u> :	FY22	FY23	FY24
Miles of pipe TV'd	106	120	127
Miles of pipe Flushed	137	135	139

Department 40: Maintenance - Continued

Performance Measures Graph: The graph below shows the number of feet per month over the last two years that the Maintenance department has flushed to keep the sewer lines clean and TV'd to ensure the sewer lines are clear of debris and roots.

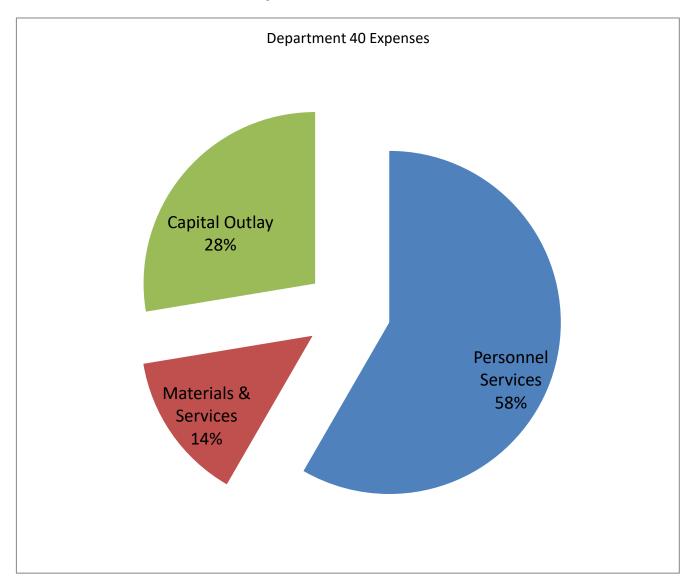

ROGUE VALLEY SEWER SERVICES FISCAL YEAR 2025 - 2026 Departmental Organization Operations and Maintenance

The Operations Manager is designated as the Operator of Record for the collection system. The City of Central Point's employee, Derek Zwagerman, is the designated Building Operator.

Department 50: Construction

Description:

Rogue Valley Sewer Services Construction Department repairs, and constructs sewer/stormwater capital improvement projects and system maintenance projects within the service boundary of RVSS.

Funding:

The Construction Department's general operational expenses are funded through revenue collected based on service charges and collected within RVSS General Fund 01. Capital Improvements are funded from revenues collected from service charges and System Development Charges and stored within General Fund 01, Interceptor Capital Expansion Fund 07, White City Storm Drain Fund 09, Stormwater Quality Fund 10, Gold Hill Treatment Fund 60, Gold Hill Collections Fund 65, and Treatment Capital Fund 70.

<u>Goals:</u>

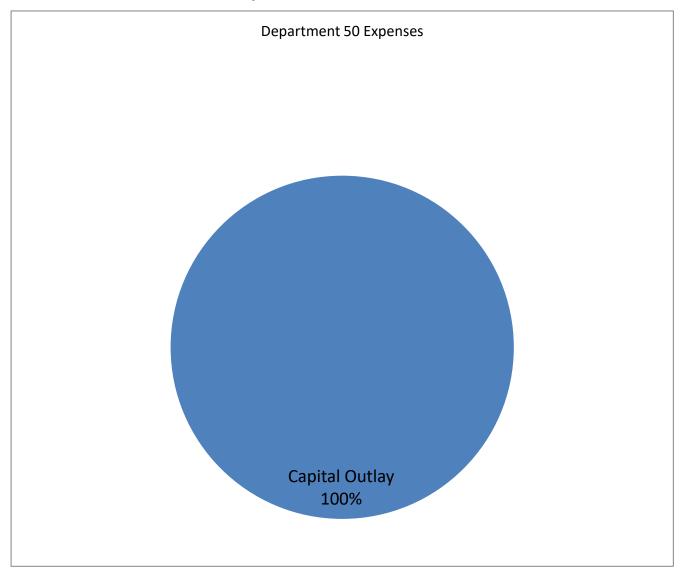

- Provide quality and efficient construction of new sewer and stormwater infrastructure within RVSS service boundary.
- Repair and rehabilitate existing infrastructure in accordance with State and RVSS Standards.
- Uphold the safety of the public and staff through the application of measure set forth by OSHA and RVSS.

Performance Measures:

- **CIP**: Complete capital improvement project on time and within the allotted budget set forth at the beginning of each FY.
- Safety: Zero-on-the job injuries per year.

<u>Outcomes</u> :	FY22	FY23	FY24
# of accidents/iniuries	-0-	-0-	-0-

Department 60: Treatment

Description:

Rogue Valley Sewer Services Treatment Department operates under the direction of the Operations Manager to run the Shady Cove Treatment Plant, Gold Hill Treatment Plant, and the White City Lagoons

Funding:

The Treatment Department's general operational expenses are funded from three different sources: The Shady Cove Treatment Plant is funded through service charges collected by the City of Shady Cove and transferred to RVSS. The Gold Hill Treatment Plant is funded through service charges collected by RVSS from Gold Hill customers. White City Lagoon operations are funded through fees charged to septic waste haulers who disposed of their waste at the lagoons.

Goals:

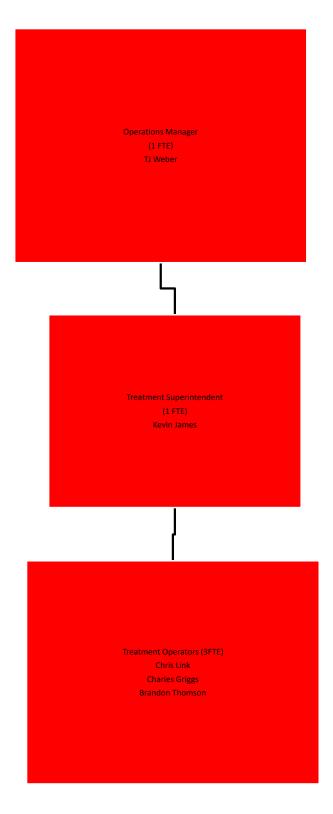

- Operate each facility in compliance with DEQ permit requirements.
- Perform routine preventative maintenance and repair of facilities to ensure consistent and reliable performance.
- Uphold the safety of the public and staff through the application of measure set forth by OSHA and RVSS.

Performance Measures:

- **Permit Compliance**: Complete all monthly monitoring reports on time demonstrating compliance with permit requirements.
- Safety: Zero-on-the job injuries per year.

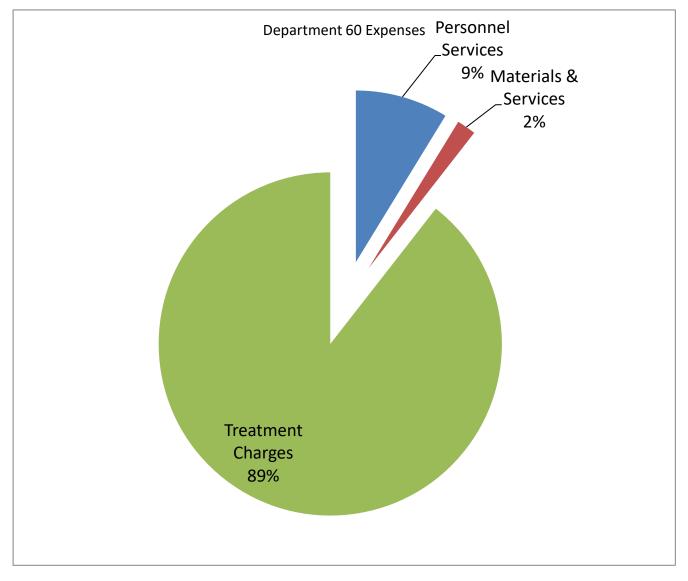

<u>Outcomes</u> :	FY22	FY23	FY24
# of accidents/injuries	-0-	-0-	-0-

ROGUE VALLEY SEWER SERVICES FISCAL YEAR 2025 - 2026 Departmental Organization Treatment

Treatment Superintendent is designated as Operator of Record for Shady Cove WWTP and the White City Lagoon Chris Link designated as backup Operator of Record for Shady Cove WWTP and the White City Lagoon

Section V: Five-Year Cash Flow Projections

General Fund Cash Flow Projections	91
Capital Improvement Plan	100
Major Equipment & Vehicle Replacement Schedule	

THIS PAGE INTENTIONALLY LEFT BLANK

Rogue Valley Sewer Services 5 Year Cash Flow Projections

The five-year cash flow projections cover only the <u>General Fund</u>. It should be noted that these multi-year projections are rough estimates made for planning purposes only. The first page shows the beginning fund balance and revenues, page two shows expenditures, and the last page shows transfers and ending fund balances.

Assumptions: 1) Growth rates for most other revenues were assumed to be 1.5%. 2) The inflation rate for labor was assumed at 3.0% and other expenditures at 2.0%. 3) Interest on investments is assumed to remain low at 5.0%. 4) Treatment charges were increased by 17%)

Two reserves are shown on the cash flow projections. The first is a reserve for Interceptor System Development Charges collected over the amount necessary to be transferred to the Regional Construction Fund. The other reserves are for operating contingencies, which are calculated at one month of budgeted expenditures.

The rehabilitation projects are based on the <u>Capital Improvement Plan (CIP)</u> prepared by the Engineer, which will be approved by the Board of Directors on June 18, 2025.

A schedule listing our projected major equipment and vehicle replacements over the next five years follows the projected five-year capital improvement plan in this Projection section of the budget document.

Collection System SDC, Fund 01

General comments on project funding: The majority of capital projects in Fund 1 are funded through a combination of system development charges and sewer user rates. There are no plans for any loans or other debt financing during **FY 2026**.

Shady Cove PS #3 Rehab, J177: The existing Shady Cove Pump Station #3 has deteriorated and is in a poor location. This project will rehab the station with a new wetwell insert, new pumps, valve vault, and controls.

Estimated Cost: \$350,000

White City Manhole Rehab, J307: This project will rehabilitate and/or replace approximately 25 manholes in the White City Industrial area just downstream of the Eagle Point Pump Station discharge into the standard gravity system. Many of the manholes are exhibiting major signs of Hydrogen Sulfide (H2S) deterioration.

Estimated Cost: \$250,000

Yearly Warranty TV & Flush, J338: This item will cover costs associated with Flushing and TV inspection of recently installed sewer lines, ending the standard 2-year warranty period.

Estimated Cost: \$30,000

Cristian Avenue Sewer, J342: The 6-inch Sewer on Christian Avenue in Talent will be replaced with an 8-inch sewer.

Estimated Cost: \$95,000

SC System Survey, J351: This project will survey the Shady Cove Collection system.

Estimated Cost: \$30,000

Echo Way PS Rehab, J353: The existing Echo's Pump Station has deteriorated and will be rehabbed with a new wet-well insert, new pumps and controls.

Estimated Cost: \$350,000

Yearly Service Lateral Replacement, J356: Rogue Valley Sewer Services will reimburse property owners within our service district for one third of the replacement cost to rebuild their existing service line from the house to the mainline.

Estimated Cost: \$30,000

Yearly Misc. System Repairs, J357: This item will cover costs associated with misc. repairs to the sewer system.

Estimated Cost: \$300,000

Yearly Misc. Grinder Pumps, J358: This item will cover costs associated with replacing existing STEP/STEG systems with EOne Grinder Pumps.

Estimated Cost: \$100,000

Misc. Pump Station Upgrades, J360: This item will cover costs associated with installing minor pump station equipment, including VFD's, flow meters, etc....

Estimated Cost: \$50,000

GH 4th St RR X-ing Abandonment, J362: This project will abandon at least two very poor existing RR crossings and rehab a third with CIPP lining.

Estimated Cost: \$850,000

Yearly Privately Funded Projects, J366: This item will cover costs for private projects identified during the course of FY 2020.

Estimated Cost: \$40,000

FY CIPP Jobs, JXYZ: This item will be used to cover costs associated with the rehabilitation of sewer pipe using Cured-in-Place (CIPP) lining technology.

Estimated Cost: \$200,000

Regional Interceptor SDC, Fund 07

General comments on project funding: All capital projects in Fund 7 are funded through the Interceptor Capital Expansion Fee. The fee is set at \$1.05 per ERU per month for all users served by the regional interceptor system. Approximately 50% of the funding comes from the City of Medford. There are no plans for any loans or other debt financing during **FY 2026**.

Flow monitoring equipment, I005: This item will upgrade our existing flow monitoring loggers, batteries, software and communications system with new Hach equipment. Our

existing loggers and software are over 15 years old and no longer supported by Hach. Existing flow monitoring sensors can still be utilized as they are compatible with the new equipment.

Estimated Cost: \$100,000

Kirtland Road MH Evaluation & Rehab, I011: The existing manholes just ups stream of the Medford Regional Treatment Plant have substantial H2S deterioration and will be rehabbed.

Estimated Cost: \$250,000

White City Industrial Storm Drainage, Fund 09

General comments on project funding: All capital projects in Fund 9 are funded through the White City Industrial Storm Drainage Fee. This fee is based on the total area and total impervious area of each property within the service area. There are no plans for any loans or other debt financing during **FY 2026**.

Avenue F & 8th Street Storm Sewer, D002: This project will install new storm sewer and upsize existing culverts as required to mitigate capacity issues near Avenue F and 8th Street in White City.

Estimated Cost: \$400,000

Avenue F & Agate Storm Rehab, D006: This project will provide a drainage study and abandon an existing 24 inch storm line under multiple railroad lines from the intersection of Avenue F and 13th to Agate Road. Flows will be rerouted to the existing 36-inch pipe along 13th.

Estimated Cost: \$200,000

Yearly Culvert & Storm Projects, D008: This item will cover costs for storm sewer projects identified during the course of the fiscal year.

Estimated Cost: \$50,000

Storm Water Quality, Fund 10

General comments on project funding: All capital projects in Fund 10 are funded through the Stormwater Quality Fee. This fee is imposed on all properties within the Phase 2 MS4

boundary and is set at \$1 per equivalent residential unit per month. There are no plans for any loans or other debt financing during **FY 2026**.

7Th Street Stormwater Facility, Q014: This project will construct a new regional stormwater facility at the intersection of Antelope Road and 7th Street in White City. The facility will treat stormwater runoff from an industrial drainage area of approximately 55 acres.

Estimated Cost: \$300,000

Glenwood Stormwater facility, Q015: This is a joint venture between ODOT and RVSS to construct a new regional stormwater facility near the Bear Creek Greenway and Glenwood Road in Phoenix. The facility will be sized to treat the entire contributing drainage basin of approximately 125 acres and will be constructed by ODOT in conjunction with the Hwy 99 improvements from N Rose St to E Glenwood Rd.

Estimated Cost: \$5,000

Stormwater Incentive Program, QXXX: This item will cover costs for private or municipal projects which apply and are approved for the Stormwater Incentive Program.

Estimated Cost: \$100,000

Treatment Capital, Fund 55

General comments on project funding: Capital projects in Fund 55 are funded through a combination of sewer user rates, SDC's and funds received through hauled FOG & septage receiving at the White City Lagoons. We will be using Clean Water State Revolving Funds in the form of a loan and grants for the **SC UV System**.

SC UV System, C013: The Shady Cove Treatment Plant currently employs a chlorine disinfection system prior to effluent discharge into the Rogue River. Even though chlorine disinfection is currently allowed by DEQ, the system is quickly becoming outdated and handling chlorine is costly and causes safety concerns.

Estimated Cost: \$1,500,000

Shady Cove Headworks Upgrades, C014: This project will cover costs to upgrade the existing headworks at the Shady Cove Treatment Plant.

Estimated Cost: \$250,000

Yearly SC Treatment Maintenance, C026: This item will cover costs associated with replacing, repairing, and upgrading minor equipment at the Shady Cove Treatment Plant.

Estimated Cost: \$150,000

WC Lagoons Solar Power, L012: This item will cover costs for a new solar power project at the White City Lagoons to offset power usage for the existing treatment process.

Estimated Cost: \$150,000

WC Lagoons Card Lock and Truck Scales, L013: This item will cover costs to install gates, a card lock system, and truck scales to help automate the dumping system at the White City Lagoons.

Estimated Cost: \$300,000

Yearly Lagoon Treatment Maintenance, L010: This item will cover costs associated with replacing, repairing, and upgrading minor equipment at the Shady Cove Treatment Plant.

Estimated Cost: \$50,000

Gold Hill Treatment Capital, Fund 60

General comments on project funding: The majority of capital projects in Fund 60 are funded through a combination of sewer user rates, state, and federal funding sources. It is anticipated that Business Oregon, Clean Water State Revolving Funds, and USDA funding in the form of loans and grants will be obtained for the **Gold Hill Regional Connection**, **G012**.

Gold Hill Regional Connection, G012: This item will cover costs associated with the design and construction of pump station(s) and associated force main to connect the Gold Hill collection system with the regional collection system and treatment plant. The costs listed here are the estimated costs in **FY 2026**.

Estimated Cost: \$4,000,000

Yearly Misc. GH Treatment Maintenance, G013: This item will cover costs associated with replacing, repairing, and upgrading minor equipment at the Gold Hill Treatment plant.

Estimated Cost: \$50,000

The following policy was approved by the Board.

"[...] The primary focus of the capital improvement plan at this time is to rehabilitate or replace pipes before they fall victim to the ravages of time. Approximately two-thirds of the collection system is PVC pipe less than 30 years old. PVC pipe should be expected to function for at least 75 years. At this time there is no reason to consider routine replacement of any of our PVC pipe. The collection system includes over 52 miles of concrete pipe and 45 miles of asbestos cement pipe. There is an additional 34 miles of concrete pipe in the interceptors and major trunks. The design life of these materials is 50 years. All of the concrete pipe and most of the asbestos cement pipe in our system is over 30 years old. There is over 19 miles of concrete pipe in the system that is over 50 years old."

"The design life of a pipe is an estimation of how long the pipe should last under normal conditions. The deterioration of a pipe from old age is rarely a catastrophic failure. More typically the pipe will suffer from small cracks, differential settlement, and root intrusion, all of which increases the amount of infiltration and potential blockages. As with any structure, the quality of initial construction and the maintenance schedule will have a big impact on the useful life of the pipe. A concrete pipe could function anywhere from 20 years to 100 years depending on the quality of construction and maintenance."

"In order to keep pace with the aging of the system 1/50th, or 2% of the concrete and asbestos cement pipe should be replaced or rehabilitated annually. This translates to approximately 2.5 miles of pipe per year. We have come very close to this over the past eight years, averaging 2.35 miles of pipe replaced or rehabilitated each year. ... Over the next five years the target of 2.5 miles of pipe per year could be achieved for an average of slightly less than \$2 million per year."

"Staff Recommendation: We consider our aggressive capital improvement program to be one of the major keys to the success of RVSS and part of what differentiates us from most other sewer utilities. We should continue with our goal to replace or rehabilitate at least 2% of the concrete and asbestos cement pipe annually. By doing this work in a timely fashion we are able to avoid much more costly emergency work in the future."

Notes:

CWSRF Loan #78492 - Final loan disbursement is estimated to be in August 2025. The first loan payment would be due December 2026. Until the final loan amount is calculated, there is a loan reserve requirement of \$96,285 as budgeted for. Because the CWSRF program receives federal funds, any loan amounts received over \$1,000,000 is subject to a Single Audit. Currently this project is budgeted to be over \$1,000,000 therefore a Single Audit is budgeted.

CWSRF Loan #78491 - There is a loan reserve requirement equal to one-half of the annual debt service once the loan is calculated. Because the CWSRF program receives federal funds, any loan amounts received over \$1,000,000 is subject to a Single Audit. Currently this project is not budgeted to be over \$1,000,000 therefore a Single Audit is not budgeted. If RVSS completes the project and is not in default of any of the terms of this agreement, DEQ shall forgive up to \$120,230 of the final loan amount.

CWSRF Loan #78493 - Until the final loan amount is calculated, there will be a loan reserve requirement of \$18,462 as budgeted for. Because the CWSRF program receives federal funds, any loan amounts received over \$1,000,000 is subject to a Single Audit. Currently this project is not budgeted to be over \$1,000,000 therefore a Single Audit is not budgeted.

Business Oregon #Y15003 Loan Assumption - Gold Hill loan assumption by RVSS dated 07/25/24. The City of Gold Hill made the December 2024 payment. RVSS to take over remaining payments.

USDA Revenue Bond Loan Assumption - If this Gold Hill Revenue Bond is approved, RVSS will take over annual payments of \$27,297. This loan requires two reserves. Debt service reserve fund in the amount of \$27,297 and Asset Replacement Fund in the amount of \$21,7219.

<u>District Debt Limit:</u> For sanitary districts, Oregon Revised Statute 450.120 limits the total outstanding bonded indebtedness to 13 percent of the true cash value of all taxable property. The real market value of the taxable property within the Rogue Valley Sewer Services boundaries is \$10,812,179,184 according to information provided by the Jackson County Assessor's Office. That value would allow the District to issue up to \$1,405,583,294 in G.O. and Revenue bonds.

OBDD #Y24007 - Final loan disbursement is estimated to be in January 2026. The first loan payment would be due December 2026.

The above gallons of sewer effluent are for the twelve months ending June 2024

Rogue Valley Sewer Services Glossary of Terms

Accrual Basis: A method of budgetary accounting where expenditures and revenues are recorded when incurred, not when paid. The method differs from GAAP Accrual Basis in that, while capital outlays are recognized as expenditures, depreciation and amortization are not.

Adopted Budget: The Proposed budget that is adopted (approved) by the district. It represents the financial plan of the district that forms the basis and limits for appropriations for the fiscal year.

Amortization: The paying off of debt with a fixed repayment schedule in regular installments over a period of time.

Appropriation: The legal authorization granted by the district board to make expenditures and incur obligations. Includes Transfer to Other Funds and Contingencies.

Appropriation Resolution: The legal document passed by the district board authorizing expenditures.

Balanced Budget: A budget in which revenues are equal to expenditures. Thus, neither a budget deficit nor a budget surplus exists ("the accounts balance").

Basis of Budgeting: A measurement focus that differs from the basis of accounting in the treatment of beginning fund balances, debt service, vacation benefits, and capital outlay in enterprise funds.

Beginning Fund Balance: A resource classification indicating those financial resources which, because they were not expended in one fiscal year, are available in the following fiscal year.

Bonds: Written promises to pay a sum of money, called principal or face value, at a future date, called the maturity date, along with periodic interest paid at a specified percentage of the principal (interest rate). Bonds are typically used to finance long-term capital improvements.

Budget: A policy statement detailing the District's plan for the accomplishment of stated goals within a particular fiscal year, including estimates of required expenditures and anticipated revenues to carry out state goals.

Budget Committee: A panel comprised of the District Board and an equal number of citizen's responsible for the review and recommendation of the annual budget.

Budget Message: A message prepared by the district administrator explaining the annual proposed budget, articulating the strategies and budgets to achieve the District's goals, and identifying budget impacts and changes.

Budget Officer: The person appointed by the District Board to be responsible for assembling the budget. For Rogue Valley Sewer Services, the district manager serves this role.

Capital Outlay: An object classification that includes items with a useful life of one or more years, such as machinery, land, furniture, computers, or other equipment, and which cost more than \$3,000.

Capital Projects: Those activities resulting in the acquisition or improvement of major capital items such as: sewer pipeline, pump stations and land.

Category: A major division of the program budget that contains programs and activities. Categories are also known as functional areas.

CIP: Capital Improvement Plan.

CMOM: Capacity Management, Operations and Maintenance Program.

CNG: Compressed Natural Gas

Collection System: This is any part of the system that is not an Interceptor or Trunk Main.

Contingency: An appropriation of funds to cover unforeseen events that may occur during the budget year. The District Board must authorize the use of any contingency appropriations.

CPI: Consumer Price Index.

Cured In Place Pipe: A subset of slip lining where the new pipe is installed as a flexible felt tube impregnated with a polymer resin. Once installed, the resin is treated with heat and cures to become a hard plastic liner.

CWSRF: Clean Water State Revolving Fund.

DEQ: Department of Environmental Quality.

Debt Service: Payment of interest and principal related to long term debt.

Debt Service Funds: These funds account for the accumulation of resources to pay the debt on capital projects.

Department Request: The annual budgetary alternative prepared by department managers indicating an appropriate, justified, and needed level of service for their department together with associated expenditures and revenues.

Depreciation: The charging of a fixed asset as an expense over the estimated service life of that asset.

Ending Fund Balance: A requirement classification for those funds not appropriated for any purpose and reserved for ensuing fiscal years. See also Unreserved Ending Fund Balance.

Enterprise Fund: A fund that is used for services provided to the public on a user charge basis.

ERU: Equivalent Residential Unit.

EV: Electric Vehicle

Expenditures: The money spent by the District for the programs and projects included within the approved budget.

Fiscal Year: Twelve-month period from July 1 to June 30 for which the annual budget of the District is prepared and adopted.

Fixed Assets: Assets of a long-term character such as land, sewer plant, buildings, furniture, and other equipment.

FOG: Fats, Oils and Grease

Force Main: Pipe that transmits sewage under pressure from a pump station.

Fringe Benefits: The non-salary part of employees' total compensation. A typical benefit package includes insurance, retirement, and vacation/sick leave components.

FTE: Full-Time Equivalent is a term used to measure the number of employees on a 40 hour per week basis.

Fund: An accounting entity with a self-balancing set of accounts that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with specific regulations, restrictions or limitations.

Fund Balance: The difference between governmental fund assets and liabilities; also referred to as fund equity.

GAAP: Generally Accepted Accounting Principles as determined through common practice or as promulgated by the Government Accounting Standards Board, Financial Accounting Standards Board, or various other accounting standard setting bodies.

General Fund: The fund used to account for operational expenses of a governmental unit financed by taxes and other general revenues.

General Obligation Bonds: This type of bond is backed by the full faith, credit, and taxing power of the government.

GH: Gold Hill

GIS: Geographic Information System.

Interceptor: Same as trunk main. In our system we use the term to define the Regional facilities (Upper and Lower Bear Creek Interceptors and Old Medford Trunk).

Lagoons:

Line Item: An expenditure description at the most detailed level. Objects of expenditure are broken down into specific items, such as printing.

LID: Local Improvement Districts are formed by petition and used to request the District to finance improvements to sewer systems over a 20-year period.

LID (in Storm Water): Low Impact Development.

Materials and Services: The term used in an operating budget to designate a classification of expenditures. Refers to planned purchases other than Personal Services or Capital Outlay.

Modified Accrual Basis of Accounting: A basis of accounting where revenues are recognized when they are both measurable and available and expenditures are recognized at a time when liability is incurred pursuant to appropriation authority.

MS4: Municipal Separate Storm Sewer Systems.

O&M: Operations and Maintenance.

OAR: Oregon Administrative Rules. Rules established by a given state department who have authority granted by an ORS to operate a specific function.

OCWSRLF: Oregon Clean Water Services Revolving Loan Fund.

Ordinance: The method by which the appropriation of the budget is enacted into law by the district board per authority of the Oregon State Statutes.

Organizational Unit: An administrative subdivision, such as a department or division, of the district government charged with carrying on one or more specific functions.

ORS: Oregon Revised Statute. The set of laws established by a vote of the people or the state legislature.

OSHA: Occupational Safety and Health Administration.

Personal Services: An expenditure classification encompassing all expenditures relating to district employees. This includes union and nonunion labor costs, employee benefits, and payroll tax expenses.

Pipe Bursting: Method of rehabilitating pipe where a new pipe is installed through an existing pipe. The old pipe is destroyed in the process. This method allows a larger pipe to be installed without removing the old pipe.

Proposed Budget: The financial and operating document submitted to the Budget Committee and the governing body for consideration.

Proprietary Fund: Consists of 2 types – Internal Service and Enterprise. These funds are used for services tendered and paid for by the patrons who use them.

PS: Pump Station.

Requirements: Total expenditures and unappropriated fund balance.

Reserve: A portion of a fund that is restricted for a specific purpose.

Resources: Total amounts available for appropriation consisting of the estimated beginning carryover balance plus anticipated revenues.

Revenue: Income for the fiscal year including transfers and excluding proceeds form the sale of bonds and notes. The major categories of revenue include sewer service charges, storm water charges, system development charges, fees and charges, and interest on investments.

Revenue Bonds: Written promises to pay a sum of money, called principal or face value, at a future date, called the maturity date, along with periodic interest paid at a specified percentage of the principal (interest rate). Bonds are typically used to finance long-term capital improvements.

Revised Budget: A budget alternative indicating all changes made to the adopted budget as the result of budget adjustments and the supplemental budget process.

SC: Shady Cove.

SCADA: Supervisory Control And Data Acquisition.

SDC: System Development Charges are assessed on new construction to cover the demands placed on District services. Charges collected will cover sewer pipelines, pump stations and other infrastructure which will provide sewer service.

Slip Lining: Method of rehabilitating pipe where a smaller pipe is installed inside an existing pipe. The existing pipe remains intact and helps support the new pipe.

Special Revenue Fund: A fund used to account for the proceeds of specific revenue sources that are restricted to expenditures for a specific purpose.

SSO: Sanitary Sewer Overflow.

Supplemental Budget: A budget that is prepared to meet unexpected needs or to spend revenues not anticipated at the time the regular budget was adopted. The supplemental budget cannot be used to decrease the ending fund balance.

Transfer: An amount distributed from one fund to finance activities in another fund. It is shown as a requirement in the originating fund and a resource in the receiving fund.

Trunk Main: A large diameter pipe used to transmit sewage from a city or large population center to a treatment plant. We use this term to describe several different large-diameter sewer mains but only have an SDC dedicated to the White City Trunk and Eagle Point Trunk.

Unreserved Ending Fund Balance: The amount of ending fund balance which has not been specifically reserved for any purpose. A reserve for debt service, as a requirement of a loan or debt issue would be an example of a reserve.

VFD: Variable Frequency Drive.

NOTICE OF BUDGET COMMITTEE MEETING

A public meeting of the Budget Committee of the Rogue Valley Sewer Services, Jackson County, State of Oregon, to discuss the budget for the fiscal year July 1, 2025, to June 30, 2026, will be held at Rogue Valley Sewer Services, 138 W Vilas Rd, Central Point, Oregon 97502. The meeting will occur at noon on the 23rd day of April 2025. The purpose of the meeting is to receive the budget message and to receive comments from the public on the budget. A copy of the budget document may be inspected or obtained on or after April 15, 2025, at 138 West Vilas Road, Central Point, between 8:00 a.m. and 4:00 p.m., or will be available on the RVSS Website at <u>www.rvss-or.gov</u>. This is a public meeting where deliberation of the Budget Committee will take place. Any person may appear via ZOOM at the meeting to discuss the proposed programs with the Budget Committee. Contact RVSS or look on our website for the ZOOM link.

Cummins Stormwater Facility Project

The Cummin's Regional Stormwater Facility was constructed to treat and retain commercial, industrial and residential stormwater in an approximately 50 acre drainage basin. Prior to the construction of this stormwater treatment facility, stormwater from this 50 acre basin drained directly into Bear Creek. Now, stormwater is redirected to the newly constructed stormwater facility where it is treated and infiltrated into the ground. The creation of this stormwater facility also benefits any new development / redevelopment within the 50 acre basin by eliminating the need for on-site stormwater management. New construction or redevelopment within the basin will simply connect to the existing stormwater conveyance system without having to create on-site stormwater management facilities. This facility, job Q013, was completed in FY25.
